

Cape Peninsula
University of Technology

Diploma in Information & Communication Technology

PROJECT PRESENTATION3: PRP372S

Name & Surname: Lisakhanya Tshokolo

Student Number: 220239215

Class: 3J

Due Date: 04/05/2026

Agile Team Charter

1. Team Purpose & Vision

Why do we exist as a team?

- **Team mission:**

  Varsity MentorHub solves the problem that many university ICT students, especially first-years and those from schools with limited exposure to coding, networking, or digital literacy, feel overwhelmed and waste time because they lack guidance on which free, high-quality learning resources match their syllabus and skill level, and they often don't have accessible personal mentorship to stay motivated and understand difficult topics; it is primarily for these ICT students, while also serving senior ICT students as mentors who want teaching/leadership experience (and potential income), with universities benefiting indirectly through improved performance and retention.

- **Success definition:**

  We'll know Varsity MentorHub is successful when ICT students consistently use the platform, complete curated learning paths, and report (and demonstrate) improved understanding and academic performance with less time wasted searching for resources, while mentors remain active and deliver high-quality support (good ratings, repeat sessions, and retention); practically, success can be tracked through metrics like student sign-ups and weekly active users, course/path completion rates, mentor-mentee match rate and session attendance, satisfaction scores (e.g., average rating), repeat usage/renewals, and evidence of outcomes such as improved marks or pass rates (self-reported or verified where possible) and stronger first-year retention trends over time as well as seeing a profit.

- **Product / Service:**

  Varsity MentorHub as a workable solution concept and MVP wireframes at present date however we will discuss what type of application we will produce, presumably a web application.

---

2. Team Members & Roles

Who is on the team and how do we contribute?

Name	Role	Key Responsibilities
Lisakhanya Tshokolo	Product Owner	• Review product • Provide feedback for improvements • Backlog Management • Sprint Planning
Samukelo Ndlela	Agile Lead	• Support Product Owner • Track Progress • Improve processes • Facilitate Sprints • Foster collaboration & communication
Athi Sintiya	Developer	• Implement features • Build software
Avuyile Sitoyi	Analyst	• Analysis & Insights • Data & requirement research
Lesego Tshabalala	Tester	• Review & debug code • Quality assurance • Optimize code

---

3. Ways of Working

How we work together day to day

3.1 Agile Framework

- ☑ Kanban – Trello tool

3.2 Ceremonies

Ceremony	Frequency	Purpose
Daily Stand-up	15 minutes daily	To sync progress, see where members are stuck and require assistance and to discuss what we'll do before the next meeting
Planning	Bi-weekly	Discuss and prioritize tasks for better outcomes of the project
Review / Demo	Bi-weekly	To show completed features/designs
Retrospective	Weekly	Evaluate what went well, what could be improved, and to plan actionable improvements for the next sprint

---

4. Working Agreements

Rules we agree to follow as a team

- We show up prepared and on time
- We respect timeboxes and each other
- We give constructive feedback
- We raise blockers early
- We commit to continuous improvement

---

5. Communication

How and when we communicate

- **Primary channels:**
  MS Teams, WhatsApp, Email
- **Response-time expectations:**
  core hours, urgent vs non-urgent:

  All communication will mainly be handled via WhatsApp and we will switch to teams for meetings during all phases for easy screen sharing and record keeping of the project.

- **Remote / hybrid norms:**
  Screen sharing, availability

6. Decision-Making

How decisions are made

- ☐ Consensus
- ☑ Product Owner final decision
- ☐ Team vote
- ☐ Agile Lead decides after input

Escalation path if we're stuck:

Team > Agile Lead > Product Owner > Lecturer

---

7. Definition of Done (DoD)

When is work really “done”?

Example:

- Code completed and reviewed
- Tests passed
- Documentation updated
- Product Owner acceptance
- Deployed to agreed environment

---

8. Core Values & Behaviours

How we treat each other

- Respect
- Transparency
- Accountability
- Trust
- Learning mindset

---

9. Risks & Constraints

What could impact our success?

- Known risks:
- Dependencies: PFP362s Entrepreneur Project
- Constraints (time, budget, tools, skills): Time

---

10. Review & Improvement

Keeping the charter alive

- Charter reviewed every:

  ☐ Quarter ☐ Release ☑ Retrospective
- Last updated: 3 May 2026

---

11. Team Commitment

Our agreement to this charter

By working on this team, we commit to the principles and agreements outlined above.

Name	**Signature/Agreement**
Lisakhanya Tsholoko	L.Tshokolo
Samukelo Ndlela	S.Ndlela
Lesego Kutlwano Tshabalala	L.Tshabalala
Athi Sintiya	A.Sintiya
Avuyile Sitoyi	A.Sitoyi
